Importance: High

Good afternoon,

Thanks to the 3 week re-opening of the US Federal Government we have a small window for rescheduling the SeTSC January meeting, targeting the week of February 11.

Please use the doodle poll linked below to indicate your availability to participate, please be flexible and accommodate as many of the time slots as you can.

Please fill out the poll by end of day tomorrow (Wednesday January 30): <https://doodle.com/poll/5acz4mgtg5it63zc>

Thank you,
Mich

Subject: SeTSC January Mtg Update

Morning,

Our next steps with the SeTSC rely heavily on our US federal partners, who are currently not allowed to work during the government shut down. We are going to wait until government work resumes prior to rescheduling our next call. I have attached a draft agenda and an updated action item list. This will give you an idea of what our next steps will be. Please keep in mind that Joe B. and Joe S. have not been contacted yet.

In the meantime:

- State of the Lake is being updated - DEQ & ENV data sets have been sent to Lotic Environmental. Teck 2018 data is anticipated to be available by the end of January.
- Wiki has been updated:
 - ENV files: M&R Activities/Ministry of Environment/2018 Koocanusa ENV DATA
 - DEQ files: M&R Activities/MT_DEQ/MTeWQX_LK-KOOCANUSA-BIO_SED_WQ_20190123
 - SeTSC Meetings/Conference Calls/December 2018
 - 2019 SeTSC Action Items: SeTSC Meetings
- Se Speciation for Suspended Particulates: ENV & DEQ have requested that Brooks Applied Labs hold our samples for analysis. Waiting for feedback from Se experts before we run the analysis. (Thanks for your feedback David)

Once we hear that our US partners are back to work, Mich will send a Doodle poll for the next conference call.

Sincerely,

Jody and Myla
